AABB Digital Publications
Frequently Asked Questions

What is a digital publication?
A digital publication can be read across a variety of devices, including desktops (PC and Mac) and mobile devices (tablets and smartphones). AABB's digital publications are digital file versions of our traditional print books; in most cases they are designed to look exactly like the print version, so you will see the same layout, figures, graphs, charts and/or drawings. Users can easily make adjustments to see one page at a time, 2-page spreads or zoom in for close study. AABB's eBooks can be read online or downloaded to computers for offline reading.

How do I find the publication I'm looking for?
Search for AABB's digital publications in the AABB Store by using the title, product code, key words, authors, editors or topic categories.

Does AABB offer bundles for purchasing both the hard copy of the book and a digital version?
We do offer bundles for some of the print and digital versions, but not for every title. Please let us know if there is a new combination that you would find valuable by contacting our Customer Service department at **866.222.2498** or **outside the US at +1.301.215.6489,** or by **emailing membership@aabb.org**.

Why aren't all AABB publications offered in a digital format?

There are several reasons why a particular title may not available in a digital version. One reason is if the AABB's digital use of a previously published illustration is not permitted by the copyright holder or if the digital use is permitted, but the fees are such that makes the price unreasonable for our members. Another reason is if the color illustrations in the book are critical and their accurate reproduction on various device screens cannot be controlled or rendered correctly. In addition, digital versions of AABB *Standards* are located in the Standards Portal, a specialized platform that provides supplemental information on individual requirements.

What if I want to buy a print copy of one publication but a digital version of another?

You may purchase items in both formats from the AABB Store, as part of the same order. You may receive separate emails confirming your purchases. The digital publication will be available within 15 minutes of purchase, and you will find the URL for access in the confirmation email. The printed publication is delivered to U.S. addresses in 5-7 business days; most international shipments take 7-10 business days.

Are these digital publications also found in the Standards Portal?

The Standard Portal offers digital versions of AABB *Standards*, along with in-depth information on individual requirements. No other AABB publications are located in the Portal.
